

NORTHSTONE **BEDDING LIME**

A natural **antibacterial
bedding** for livestock

Available in
**Bulk
Bags**

- Northstone Bedding Lime is produced from a high calcium limestone directly from Carmean Limeworks, Moneymore
- Bedding Lime can assist in protecting livestock against disease and infection
- The powdered lime is highly absorbent ensuring that livestock are cleaner

FEATURES

- Highly absorbant
- Finely ground to allow for high surface area coverage
- Adds value to slurry for application to soil
- Suitable for a range of housing including stables, calf houses and lambing boxes

ADVANTAGES

- Reduces risk of environmental mastitis and SCC
- Assists in the control of odour

Hydrated Blended Lime

The added benefits of hydrated lime offers additional protection to livestock from disease and infection.
Using a blend of high calcium and hydrated lime will inhibit the growth of pathogenic bacteria.
