With over 60 years of experience in the sand industry, we are your trusted partner in extracting, processing, and supplying graded, classified, washed equestrian sands throughout Northern Ireland. Our sand, sourced from Lough Neagh, is washed to remove silt and classified to achieve a clean, fine grade.

At Northstone Materials Limited we understand that every horse arena is unique. That is why we take pride in offering a diverse range of sand options. Choose from our Lough Sand or Pit Sands from the Sperrins to find the perfect match for your arena.

## TESTIMONIALS

***"Laurel View Equestrian Centre have used various sands at our centre over the years, but since changing to Northstone Materials several years ago for both our indoor & outside arenas, we find it to be a good sand for the horses. Thanks for all your support!"***

Linda and Robert Davis, Proprietors  
Laurel View Equestrian Centre Limited, Templepatrick

***"As a very busy RDA centre and general equestrian centre we must take the quality of our arena surfaces very seriously - to ensure the safety and best experience of all our users. We are pleased to have been supplied Lough Neagh sand by Northstone Toomebridge."***

Christine Hankin, Director Coaching & Pony Welfare Officer  
RDA, Causeway Coast & Glens Ltd

***"I used Northstone lough sand to refresh my indoor and build my new outdoor arena and can say the quality of the sand is outstanding, providing excellent footing for both horse and rider. The sand consistency is perfect for arena surfaces ensuring optimal traction and stability during training sessions and competitions."***

Scott Logan  
Knockagh View Equestrian Centre
