Our Vision

Delivering Excellence through
the **Passion of Our People**

ABOUT NORTHSTONE MATERIALS

We have been supplying the construction industry in Northern Ireland for more than 60 Years. Our combined product portfolio and associated services consistently achieve a reputation for quality and value unrivalled in the materials supply sector in Northern Ireland.

We build on our core values of a well established professional company taking service level, value and customer choice to new levels of excellence. We offer our customers, existing and new, a wide range of products and services from one source. This results in simplified purchasing, invoicing and payments as part of our enhanced customer package. Customers are assured of responsiveness to their needs and superior service levels. Establishing effective, long lasting relationships with our customers is of primary importance to everyone in our team.

PRODUCT AGGREGATES

We produce an extensive range of aggregates and fill products. We cater for large & small construction projects, ranging from self-build to the completed flagship A6 dual carriageway works.

We produce aggregates and fill products from local materials. These are available in a broad range of sizes & grades. We also produce bespoke graded aggregates for projects with unique requirements.

We regularly export our High-PSV aggregates for use in motorways, dual carriageways, roundabouts and airport runways across Ireland, the UK and Europe.

We are one of Northern Ireland's largest extractors of quarry products, with multiple sites throughout the province. Our material resources and vehicle fleet assure customers that we can supply products in considerable quantities, and within tight timeframes, to even the largest construction sites.

PRODUCT LIMESTONE

We produce a range of white limestone aggregates from our plant at Carmean, Magherafelt.

Our quality-assured products are suitable for use in:

- Building and Construction
- Agricultural
- Animal Feeds (FEMAS accredited)

Limestone aggregates can be supplied by:

- Bulk tipper load
- Mini-bulk 1 tonne tote bag
- 25kg palletised bags

For larger orders, we offer the service of printing customer logo on the 25kg bags

As the market leader, we produce and supply all construction, agricultural and bespoke limestone products.

PRODUCT CONCRETE

We provide quick and efficient delivery of ready-mixed concrete from our production facilities across Northern Ireland. Our material resources and vehicle fleet assure customers that we can supply products in considerable quantities, and within tight timeframes, to even the largest construction sites.

We produce all the most commonly requested mixes and provide bespoke products for projects where a unique concrete mix is required.

Ready Mix is available from our concrete production facilities throughout Northern Ireland. All products are produced and supplied to the relevant quality standards.

PRODUCT SPECIALIST CONCRETE

We produce and supply a range of specialist concretes such as exposed, coloured, fibre reinforced, waterproof and eco friendly for specific projects, we can tailor a bespoke mix and/or colour combination.

Exposed aggregate concrete is regularly used in public realm works where an aesthetically pleasing finish is required, whilst maintaining the correct XF2/PAV1 exposure class.

Common uses include:

- Shore promenades
- Entrances to commercial properties
- Town centre walkways
- Driveways

We are consistently pushing the boundaries of cement and concrete technology to provide more value to our customers in an ever-changing environment.

Examples include:

- Structural Fibre Reinforced concrete
- Complete Watertight system advice and design
- High-performance self-compacting concretes
- Decorative concretes for exposed concrete surfaces
- Integral pigmented concretes in a range of colours
- Lightweight aggregate screeds and concretes

PRODUCT SCREED

We produce and supply an innovative range of Traditional, Liquid and Professional floor screeds perfect for any job.

Northflo Cemfloor is the product of choice for its superior thermal efficiency/drying performance and reliability.

Northscreed Traditional and Performance screeds can be customised to meet the specific requirements of each project.

Our internal screed specialist and supplier/partners will provide support and advice from design to completion.

These products are the industry standard for floor insulation due to their superior reliability and thermal efficiency.

Our broad range of floor screed products is available to both residential and commercial customers.

All products are produced and supplied to the relevant quality standards.

We have experts on hand to advise, guide, and make the whole process effortless.

PRODUCT CONCRETE BLOCKS

We manufacture and supply a range of traditional and thermal concrete blocks and bricks. Our range of concrete blocks cater for both residential and commercial construction projects, large or small.

Our concrete blocks and bricks are produced to the highest regulatory standards and are available from/used in:

- Builder's Merchants
- Self build projects
- Social housing projects
- Private development sites
- Construction build projects

Our centralised shipping and vehicle fleet assure customers that we can supply products in considerable quantities, and within tight timeframes, to even the largest construction sites.

Our product range includes:

440 * 300 * 100	18 * 12 * 4	Big 12's, Foundation Block
340 * 300 * 100	14 * 12 * 4	Small 12's, Footing Block
440 * 140 * 100	18 * 6 * 4	6 * 4's, Soap Bars
440 * 100 * 100	18 * 4 * 4	4 * 4's, Soap Bars
215 * 100 * 65	9 * 4 * 2.5	Brick

PRODUCT SAND

We produce and supply all industry standard grades of sand.

We also produce bespoke grades for unique project requirements with modern technology at our sand production sites.

As well as construction sands, we produce and supply for:

- Sports fields
- Sports pitches
- Golf courses
- Equestrian centres
- Other similar facilities

Our material resources and vehicle fleet assure customers that we can supply products in considerable quantities, and within tight timeframes, to even the largest construction sites.

PRODUCT ROOF TILES

In our state of the art roof tile factory in Toome, we manufacture and supply a range of high quality roof tiles and accessories. Our roofing products division, and our roofing services division, have built a trusted reputation within the industry for quality and consistency.

Our roof tile factory and roofing contracting teams allow us to provide a start to finish roofing service to our customers.

To learn more about our range of roof tiles and our professional roof fitting service, please ask us for a copy of our "Roof Tiles & Accessories" brochure, or visit our website at www.northstonematerials.com.

Our roof tiles are manufactured to the very highest standards including the latest European standard BS EN 490.

All roofing services are accredited to BS EN ISO 9001 and comply with BS 5534:2014.

We are members of The National Federation of Roofing Contractors and are Trustmark registered.

SERVICE ROOFING CONTRACTING

Our in house roofing servicing teams are trained to operate to the highest standards. These teams work efficiently to ensure exemplary workmanship within an impressive timeframe.

We provide a start to finish roofing service. We manufacture and supply a comprehensive range of premium roof tiles and roofing accessories.

Our roof tiles are manufactured to the very highest standards including the latest European standard BS EN 490.

All roofing services are accredited to BS EN ISO 9001 and comply with BS 5534:2014.

We are members of The National Federation of Roofing Contractors and are Trustmark registered.

SELF BUILD

We routinely partner with individuals who are about to embark upon a self-build journey. Building your own house can be overwhelming, and we prioritise doing all we can to advise upon, help and simplify the project as a whole.

Each self build customer is looked after by their own appointed sales manager. This means only 1 point of contact throughout, ensuring that your project requirements are genuinely understood.

Our customers benefit from the most competitive prices, as they are buying directly from source.

With over 26 customer service locations province wide, a depot from which to collect materials or request delivery is always within range.

Our range of self build products include:

- Roof tile products
- Concrete Blocks
- Building & Plastering Sand
- Floor Screed
- Ready Mix Concrete
- Stone & Aggregate
- Driveway Surfacing

PRODUCT ASPHALT

We have material resources, expertise and fully automated plants, making us the NI asphalt market leader.

We advise upon and produce bespoke asphalt mixes for all project sizes, from:

- Standard road surfacing
- Anti-skid materials
- Highly bespoke mixes for projects requiring a unique & specific aesthetic finish

Our extensive resources and vehicle fleet assure customers that we can supply products in considerable quantities, and within tight timeframes, to even the largest construction sites.

We implement the highest industry standards as part of our established ISO 9001 Quality Management System. Asphalt produced to BS EN13108.

We are committed to research & product innovation. This has led to the development and use of sustainable quality surfacing materials.

SERVICE CONTRACTING PROJECTS

Our experienced, competent workforce and industry-leading equipment allow our team to deliver road surfacing operations at an impressive speed.

All contracting projects comply with our third-party BSI accredited management systems:

- BS EN ISO 9001 (Quality Management System)
- BS EN ISO 14001 (Environmental Management System)
- BS EN ISO 45001 (Health & Safety Management System)
- NHSS 12D for the installation, maintenance and removal of Temporary Traffic Management on Rural and Urban Roads
- BBA HAPAS certification 4 Highway Products and Systems

Our team deliver all projects:

- Residential
- Commercial
- Public Sector

The £18m A6 Randalstown to Castledawson Dualling, is evidence of our team's competence. The quality standard achieved and completing on time and within the budget required faultless planning & logistics.

All asphalt mixes comply with National Highway Sector Scheme 16 for the laying of asphalt. Our plant & vehicle replacement policy has resulted in the ownership of an impressive inventory. Our fleet of insulated lorries provides further assurance to the level of service and reliability. We have an impressive track record of delivering on time and to specification.
