

Northfast Derrie Dry Ridge System 3m

- Provides continuous ventilation along the ridge line
- Provides mechanical fixing of the ridge tiles
- Complies with BS5250, BS8612
- Provides increased security against high wind conditions
- Profile Fillers eliminates mortar between the tile rolls and seals the cavity between the tile and ridge, eliminating the possibility of bird nesting.
- Easy to fix without concern for worsening weather conditions
- Effective ventilation area 10,000 sq. mm. per metre run of ridge = continuous 5mm ventilation on each side of ridge.
- Suitable for rafter pitches between 17.5 - 50 degrees
- Suitable for use with Half Round, Universal Angle or Multi Ridge.

*Ridge batten height table

Tile profile	Rafter pitch	Batten height mm
Derrie	22.5° - 35°	75
	36.0° - 50°	50
Flat Tiles	22.5° - 30°	50
	31.0° - 55°	25

Northfast Derrie Dry Ridge System 3m

Profile Fillers

Pack Contents:

20 No Profile Fillers for Derrie
Derrie Tiles

1. Follow all the fixing instructions in the accompanying pack of Dry Fix Ventilated Ridge, (packed separately) until you are ready to install the 900mm ventilation units.
2. Click the individual profile fillers into the ventilation strips 3 per strip. Then click the ventilation strips together end to end and position to each side of the ridge. Make sure they are facing the correct way – for ease of use both the profile fillers and the ventilation strips have arrows which must point towards the ridge.
3. Continue with the fixing procedure for the ridge unions, following all good roofing practices and the requirements of National Building Standards
